

TROPI BLOOM™

6-3-16

PREMIUM FERTILIZER BLEND

NOURISH. STRENGTHEN. FRUIT.

Designed for Tropical Fruit Trees & Vegetables

TropiBloom™ 6-3-16 is a premium fertilizer blend specially formulated for tropical fruit trees during the fruiting stage. With low nitrogen, moderate phosphorus and a high dose of potassium, it promotes stronger trees, larger yields, and juicier, more flavorful fruits. Enriched with essential micronutrients and chelated iron, TropiBloom supports healthy foliage and vibrant fruit development, ensuring your tropical orchard reaches its full potential.

STRONGER TREES

Supports healthy growth and structure

PROMOTES FLOWERING

Encourages more blooms and better fruit set

BIGGER, JUICIER FRUITS

Enhances fruit size, color and flavor

COMPLETE NUTRITION

Includes essential micronutrients and chelated iron for maximum absorption

GUARANTEED ANALYSIS

Total Nitrogen (N)	6%
Available Phosphorus (P ₂ O ₅)	3%
Soluble Potassium (K ₂ O)	16%
Magnesium (Mg)	2.99%
Sulfur (S)	12.386%
Iron (Fe)	1.776%
Manganese (Mn)	0.096%
Zinc (Zn)	0.108%
Boron (B)	0.055%

Derived from: Polymer coated urea, diammonium phosphate, sulfate of ammonia, sulfate of potash, magnesia, sulfate of potash, biosolids, manganese sulfate, iron succrate, zinc sulfate, sodium borate.

SUGGESTED RATES

- Apply ¼ to ½ lb to small/medium plants (15–36" height).
- Apply 1 to 3 lbs to plants taller than 36".
- Apply once in early spring to promote flowering and 1–2 times after harvest for recovery. Cease application once tree begins to flower.

Top dress around the plant, keep away from the stem, and irrigate thoroughly after application.

IDEAL FOR:

- ✓ Mango
- ✓ Avocado
- ✓ Citrus
- ✓ Papaya
- ✓ Dragon Fruit
- ✓ Banana
- ✓ Guava
- ✓ Starfruit
- ✓ Lychee
- ✓ Tropical Ornamentals
- ✓ Vegetables
- ✓ and more!
