

WEED SELECT[®] PRO SYSTEM

A NEW STANDARD IN WEED CONTROL

KILLS WEEDS – NOT YOUR LAWN!

A powerful 3-way herbicide system engineered to eliminate tough weeds and protect your investment.

BEFORE

AFTER

BROADLEAF CONTROL

Shuts down broadleaf weeds by stopping cell growth and disrupting essential plant processes.

SEDGE ELIMINATION

Delivers fast burn-down and moves into the plant to destroy sedges at the root and prevent regrowth.

GRASSY WEED SUPPRESSION

Blocks weed growth and prevents new germination for longer lasting control.

THE POWER IS IN THE FORMULA!

3 ACTIVE INGREDIENTS. 3 WAYS TO WIN.

ACTIVE INGREDIENT:

Pyroxasulfone

FUNCTION: Provides long-lasting pre-emergent control by stopping weed seeds before they sprout.

ACTIVE INGREDIENT:

Sulfentrazone

FUNCTION: Delivers quick burn-down of existing weeds and enhances control of tough sedges.

ACTIVE INGREDIENTS:

Thiencarbazone, Foramsulfuron & Halosulfuron

FUNCTION: Provides powerful systemic control of broadleaf, grassy and sedge weeds, working deep to kill at the root.

WHY THIS IS DIFFERENT!

- ✓ Pre & Post Emergent Action
- ✓ Contact + Systemic Control
- ✓ Targets ALL Major Weed Categories
- ✓ Professional-Grade Performance

★ A UNIQUE APPROACH ★
RARELY SEEN IN THE INDUSTRY!
